

CHAMELEON

THE HIGH SECURITY CURTAIN WALL SYSTEM

UPGRADE AN EXISTING CHAIN LINK FENCE

AMICO Security Chameleon

The Chameleon System allows you to upgrade an existing chain link fence to the AMIGUARD system utilizing existing fence posts. The patent pending AMICLAMP design allows easy attachment to an existing post to accommodate the AMIGUARD INFINI-RAIL. A security mesh curtain wall can then be attached by utilizing AMIGUARD diamond fasteners. This system allows you to upgrade an existing chain link fence to a high security perimeter system with anti-cut and anti-climb capability.

- Allows you to utilize existing fence posts already set in place
- Saves time (up to 40% over other solutions) and materials
- Allows you to utilize existing grounding systems in place
- Can quickly and simply increase the security level of an existing fence
- Unlimited security mesh options
- Choice of finishes

SUSTAINABILITY

AMICO Security always wants to pay more, and continuous attention to the quality of our processes and thus the products, working conditions at our facilities and the associated environmental impacts. The same goes for sustainability. AMICO Security is committed to meeting the needs of today without compromising the needs of future generations.

AMIGUARD AMICLAMP

The Chameleon System allows you to upgrade an existing chain link fence to the AMIGUARD system utilizing existing fence posts. The patent pending AMICLAMP design allows easy attachment to an existing post to accommodate the AMIGUARD INFINI-RAIL. The Chameleon system can include various post sizes including 2-3/8", 2-7/8", 4", and 6-5/8".

A security mesh curtain wall can then be attached by utilizing AMIGUARD diamond fasteners. This system allows you to upgrade an existing chain link fence to a high security perimeter system with anti-cut and anti-climb capability – at a fraction of the cost of new.

AMIGUARD is a complete “unitized” perimeter security system which incorporates innovative components, secured together to create a unified curtain wall perimeter barrier.

Our unique approach incorporates “innovative solutions” to solve common concerns including – security, aesthetics, seamless design, ease of installation, incorporation of impact and fiber optic cables, and anti-cut anti-climb mesh options.

The AMIGUARD system allows you to incorporate many types of infill panels including: unlimited mesh styles, flat, architectural and ballistic – making it the most versatile high security perimeter system on the market.

Finishes

AMICO Security offers two highly corrosion resistant finishing options:

- Hot-Dip Galvanizing
- Powder coating over E-Coating

These finishes help protect and add color to our base materials creating stunning visual effects.

Mesh Styles

The Chameleon Retrofit system works with any Mesh Style offered under the AMIGUARD product lines. Chameleon is compatible with the AMIGUARD 5000 series wire meshes, it works with our 6000 and 7000 series expanded metal meshes, and it works with our APEX series, the Architectural Expanded Metal product line.
