

PRODUCT OVERVIEW

Chameleon™ Retrofit System shown

PERIMETER SECURITY SYSTEMS

Perimeter Security Frameworks

AMIGUARD® Perimeter System

AMIGUARD® Perimeter System is a patented “unitized” system which incorporates innovative components. Tied together this creates a total curtain wall perimeter barrier.

AMIGUARD's unique approach incorporates innovative solutions to solve common high security concerns including aesthetics, a seamless design, and ease of installation.

The AMICO system allows you to incorporate various types of infill panels, making it the most versatile high security option on the market. AMIGUARD® is available in both galvanized and powder coated finishes, with up to a 10-year limited warranty.

Chameleon™ Retrofit System

The Chameleon™ System allows you to upgrade an existing chain link fence to the AMIGUARD® Perimeter System utilizing existing fence posts. This allows you to upgrade to a perimeter system with anti-cut and anti-climb capability.

- Allows you to utilize existing fence posts already set in place
- Saves time (up to 40% over other solutions) and materials
- Allows you to utilize existing grounding systems
- Can increase the security level of an existing chain link fence
- Unlimited security mesh options
- Choice of finishes

Also available, ANC® Chameleon™ Hybrid System a combination of ANC Non Conductive components on the outside and Chameleon Retrofit components on the inside.

ANC® Chameleon™ Hybrid shown

ANC® Non Conductive System

The ANC® Non Conductive fence system is a total perimeter solution to offer a safe, aesthetically pleasing, non-conductive, radar friendly alternative to traditional fencing.

- Savings – can be less expensive than the overall installed cost of grounded chain link fence
- M5 security rating in compliance with the ASTM standards
- Can be installed to meet any layout or grade changes
- Tested to be non-conductive
- 100% non-metallic and corrosion resistant

AMIGUARD® 5000 Series Meshes

The AMICO Security AMIGUARD® 5000 Series Wire Fence System addresses the drawbacks of chain link fencing. It enhances safety in a cost-effective system without compromising visibility or aesthetics. AMICO Security Wire system includes 5500 double wire mesh, 5600 3D wire mesh and 5700 wire mesh for enhanced security.

AMIGUARD® 6000 & 7000 Series Meshes

Each AMIGUARD® 6000 & 7000 Series Security Mesh panel goes through a process of slitting and stretching metal sheet to form the desired style. This allows customers to customize the system to defend against a wide array of threats. As the world's largest producer of meshes for security, AMICO offers a wide array of medium to high security designs. These meshes can be produced to meet many project specifications including: anti-climb, anti-cut, ballistic, visual screening and a broad spectrum of architectural appearances.

AMIGUARD® APEX Fencing

APEX, a new line of high-quality Architectural Expanded Products, offers a unique combination of opaqueness, translucency, texture and structural integrity. array of threats.

AMIGUARD® 8000 Series Gates

The AMIGUARD® 8000 Series Gates are fully integrated with our Security fence product lines and AMIGUARD® meshes. AMIGUARD® 8000 Series Gates provide security and access control for industrial, commercial and residential sites. This product line include ANC Non Conductive Swing Gates, Metal Swing and Slide Gates, and Turnstiles.

AMIGUARD® 9000 Series Vehicle Barriers

With the addition of the AMIGUARD® 9000 Series Vehicle Barriers, AMICO Security is now offering manufacturing, integration, design and installation of crash rated anti-vehicular equipment solutions and expert technical support for government, industrial, commercial, and residential applications.

Our products have a long track record of reliability in the marketplace from active bollards and wedge barriers, to passive systems like cable barriers and fixed bollards.
