# PERIMETER SECURITY FOR DATA CENTERS

**AMICO Perimeter Security products deliver the proven solutions for Data Centers to provide a formidable barrier to intrusion.**

**We offer the full range of perimeter solutions with a wide array of medium to high security designs:**

- **Anti-climb, anti-cut, ballistic, visual screening**
- **Ability to upgrade an existing chain link fence**

**We offer the complete range of crash rated anti-vehicular products:**

- **Cable Systems**
- **Full array of Crash Gates and Crash Arms**
- **Full offering of fixed, removable, shallow and retractable Bollards**
- **Wedge Barriers**

## **Chameleon® Bypass Framework**

Chameleon® uses a bypass rail system which is very flexible in terms of post spacing and offers a great variety of fence infills. Infills range from expanded metal panels to welded wire panels and palisade fencing. This unique system saves up to 40% in time and materials over other solutions.

The patented Chameleon® System, U.S. Design Patent No. D996,198 is available with round posts or square posts, named Chameleon®, or Chameleon<sup>2</sup>® respectively.

## AMIGUARD® 4000 Series Palisade Infills

AMICO Security Palisade fence system includes 4500 Series Flat Pales, the 4600 Series Tri-Point Pales and the 4700 Bent Tri-Point Pales for enhanced deterrence. The AMIGUARD® 4000 Series Palisade Fence System is available in 6-, 7-, 8- or 10-foot heights. All Palisade fences can be installed using the AMIGUARD® Framework or the Chameleon® Bypass Rail Framework system with round or square posts. Both innovative frameworks reduce the labor costs significantly compared to traditional systems.

## AMIGUARD® 5000 Series Welded Wire Infills

The AMICO Security AMIGUARD® 5000 Series Welded Wire Fence System addresses the drawbacks of chain link fencing. It enhances safety in a cost-effective system without compromising visibility or aesthetics.

## AMIGUARD® 9000 Series Vehicle Barriers

AMICO Perimeter Security is offering manufacturing, integration, design and installation of crash rated anti-vehicular equipment solutions and expert technical support for government, industrial, commercial, and residential applications. The AMIGUARD® 9000 Series Vehicle Barriers are fully integrated with our Security fence product lines.

Our team members have more than 20 years experience in partnering with contractors, installers, architects, and engineers to deliver high-quality designs, products, and services for complete anti-vehicular solutions. Our products have a long track record of reliability in the marketplace from active bollards and wedge barriers, to passive systems like cable barriers and fixed bollards.

## AMIGUARD Ballistic Panels™

AMIGUARD® Ballistic Panels for ballistic fence, wall and gate systems are being manufactured by a world leading manufacturer of bullet resistant fiberglass. The composite laminate consists of fiberglass reinforced thermoset resin designed to defeat a projectile through a process of energy absorption through controlled delamination and energy dissipation.

## AMIGUARD® Accesories

AMICO Perimeter Security provides engineering support and accesories to address the security needs of specific projects. For example we provide tech posts designed to work as a platform for a wide range of surveillance equipment like radar, IR, CCTV, etc.
